Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species I in the reply filed on July 29, 2006 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-4 and 15-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee (6,948,721).

Lee discloses an air-suspension system for a vehicle comprising a compressed-air delivery 18 device, a plurality of air-suspension bellows (not shown), valves 40 constructed and arranged for controlling the filling of at least one of the air-suspension bellows with compressed air from the compressed-air delivery device, the arrangement of the valves defining a plurality of states, and means for automatically controlling the effective delivery capacity of the compressed-air delivery device as a function of a state of the plurality of states defined by the arrangement of the valves. The means for automatically controlling the

Art Unit: 3616

effective delivery capacity of the compressed-air delivery device includes means for controlling at least one of speed and rpm of the compressed-air delivery device see paragraph [0021]. Lee teaches one vent port 14 for controlling the effective delivery capacity of the compressed-air delivery device by venting compressed air to atmosphere.

With respect to claims 1-4, Lee teaches the method for operation of an air suspension system as disclosed above.

Allowable Subject Matter

4. Claims 5-8, 10, 11-14, 18-22 and 24-28 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Faye M. Fleming whose telephone number is (571) 272-6672. The examiner can normally be reached on M-F (9:00-5:00).
